

Metropolitan Milwaukee Association of Commerce's
WORLD TRADE ASSOCIATION

**MMAC World Trade Association “The Challenges of Global Product Compliance”
Wednesday, April 24, 2019**

Keynote Speaker, Angus Low Bio

Manager, Global Product Standards and Regulation
Rockwell Automation

Angus Low is manager and strategist for Standards & Regulations activities aimed at optimizing resources, identifying and mitigating risk, and training RA stakeholders to handle multiple technical standards and their related activities.

He leads a global team of technical staff to ensure timely delivery of information for global compliance strategies, as well as influencing the development of technical standards.

Angus is a subject matter expert for new technical global regulatory requirements, including UL/IEC 60950, Cybersecurity, plus international marks of conformity for market access.

Angus received a BS in Electrical Engineering and an MBA in Global Management from Marquette University.
