"Finance & Mitigating Risk"

Speaker profile -
Sebastian Sintes, Director and the manager of Bank of America's International Treasury Solutions team

Background

Sebastian Sintes is a Director and the manager of Bank of America's International Treasury Solutions team. He has over 20 years of experience providing clients with advisory services across various treasury and markets focused areas.

Professional and industry experience

Sebastian has provided treasury and risk advisory services for companies ranging in size from small businesses to Fortune 500 companies. His experience includes the development of an international treasury roadmap, establishing shared service centers, global system integrations, and the development of a risk management framework. Sebastian has worked with clients in a variety of industries including manufacturing, healthcare, services, and technology.
